Serbia

The history of cross-border health in the Hungarian-Romanian-Serbian border area

1. I. Basel conference: the lecture of Professor Jacques Scheres
2. Interreg III/A project with the expertise of the University Hospital of Maastricht
3. The lecture of Professor Jacques Scheres in Hungary – among the audience the designers of the Hungary-Romania Cross Border Co-operation Programme 2007-2013

Health insurance without borders

INTERREG IIIA

- Laying down the foundation for the co-operation of health insurers, modelling the operation of the clearance of accounts system
- Increasing the effectiveness of treating patients
- Ensuring healthcare services in the DKMT Euroregion regardless of citizenship

- Preparation of a foundational study regarding the healthcare co-operation
- Definition of a co-operation and clearance of accounts model, which can be applied in practice

- Further objective: introduction of the DKMT Euroregional health care card
