

**CROSSING BORDERS
TOGETHER –
SETTING OUT
A FRAMEWORK
FOR NEW IDEAS**

Regio Basiliensis

The border region between Switzerland and its neighbours in Germany and France serves as a central business and living environment, functioning as a strong interface.

The prerequisite for successful and sustainable cross-border cooperation is collaboration characterized by mutual trust. In its role of both private and public platform, Regio Basiliensis with its diverse networks and longstanding experience will continue to make a significant contribution to this region.

As a competence centre for cross-border cooperation, the association Regio Basiliensis uses its position correspondingly and injects its expertise directly into all its cross-border networks.

Dr Kathrin Amacker
President of Regio Basiliensis

The Swiss partner for Upper Rhine cooperation

Die Regio Basiliensis

- promotes cross-border cooperation.
- gives as an association fresh impetus to the key issues for the region
 - The economy and labour,
 - Transport and education,
 - Living space and the environment.
- represents Switzerland's interests on behalf of the cantons of Northwest Switzerland in the cooperation bodies of the Upper Rhine.
- is a point of contact for European and Swiss programmes to promote cross-border cooperation.

Our fields of activity: Education and the economy, transport, living space, society

The association campaigns for

- Basel/Upper Rhine as an attractive and competitive location with an international presence and easy accessibility.
- the concerns of cross-border commuters and an integrated cross-border labour market.
- further development of the Upper Rhine as a region of expertise and innovation;
- an attractive range of cross-border cultural and recreational activities.
